

**SMART Monitoring Program
Report Card Color Codes**

INDICATORS	
WATER COLUMN CAUSES	
Blue	Excellent, comparable with reference sites
Green	Good, meets criteria
Yellow	Concern, may not meet criteria now (risk assessment) or in the future (downward trend)
Orange	Fair, marginally meets criteria or occasionally does not meet criteria
Red	Poor, does not meet criteria
SEDIMENT CAUSES	
Blue	Excellent, comparable with reference conditions
Green	Segment specific information below screening levels
Yellow	Concern, may not meet criteria now or in the future.
Orange	Exceeds screening level criteria, adverse impacts probable or moderate impacts apparent
Red	Severe impacts probable or apparent
TISSUE CAUSES	
Blue	Excellent, comparable with reference conditions
Green	No restrictions or advisories are in effect
Yellow	A precautionary advisory is in effect. (A statewide precautionary mercury advisory for sensitive portions of the population is in effect.)
Orange	Segment is specifically designated with a limited advisory-targeted population and/or species. P1 (all species), P2 (species), P3 (species)
Red	Segment is specifically designated with a full advisory-general population, all species, limited or nonconsumption. P4, P5, P6
SOURCES	
Grey	No known/suspected/potential sources identified
Yellow	Suspected source, no impairment documented
Orange	Suspected source, impaired water (Fair or Poor)
Red	Known source, impaired water (Fair or Poor)
